Time Waiting for a Job

None

11 Months

Why?

- ⋮ Although Jay and Jasmine both completed college in the same year. Jasmine was smart and enrolled in GetAJob In-College.
- ⋮ While still in school, GetAJob helped Jasmine get a paid internship on CPT. Jay couldn't find a job or could find someone to hire him on his visa status
- ⋮ When Jasmine completed college, the training, mentorship, and opportunities provided by GetAJob InCollege allowed Jasmine to decide on the job she wanted and negotiate based on her experience and expertise.
- ⋮ Jay, on the other hand, had no experience and had to begin working gig jobs to meet ends meet. Jay had no offers and had to wait a year before he was finally hired in a small startup.
